AU BALES OFFERED		44,690	* 16.5 is the lowest Micron Price Guide (MPG) published by The Australian Wool Exchange (AWEX). Therefore MPG's below 16.5 micron are an estimate based on the best available information at the time of publication. Likewise, for any category where there is insufficient quantity offered to enable AWEX to quote, a quote will also be provided.																		
AU BALES SOLD		39,716	* Recording of 15 & 15.5 micron commenced in October 2017, and as a result some historic data is not yet available for those MPG's. Where historic data is not available an estimate based on '16 micron statistics' and incorporating the existing 15 & 15.5 micron data, will be provided as a guide.																		
AU PASSED-IN%		11.1%

MARKET COMMENTARY Source: AWI

Pre-sale expectations from the trade were for a better week of prices, which was certainly the case upon opening. Almost all categories sold progressively dearer on the first day, gaining 15-30 cents. The tone in the auction rooms was healthy, and competition reasonably strong, but notably, two or three leading buyers were not caught up in the initial flurry of activity. Whilst not absent entirely from purchasing, they strategically left the push to others.

The second and final day of selling was hampered somewhat by a large offering of very similar types in the super fine end of the market. These types are comparatively much harder to sell now than the broader 18.5-micron Merino types. Additionally, a stronger AUD against the USD had somewhat stymied the business emanating from mainly China overnight, and the market subsequently lost a little impetus throughout the final day, giving up some of the previous days' gains. Notably, as prices regressed, the leading buyers returned to the action, soaking up the quantity on offer at more advantageous levels.

The net result for the week was largely positive, with most wools closing 5-15 cents higher. After a month of uncertainty and lowering prices, most participants seemed pleased about the brighter atmosphere.

Around 43,000 Australian-grown bales are rostered to sell next week.

Definitions:

* A Percentile, is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general a percentile between 25% and 75% is considered normal, a percentile below 25% is considered below normal and a percentile above 75% is considered above normal.

Three and ten year percentiles shown on the bottom line of table 2 & 3 (above) and in table 1 (on page 1), detail the amount of time during the past 3 & 10 years where the market has traded either at or below its current price.

* Deciles are a method of sorting ranked data into 10 equal groups. The data may be ranked from largest to smallest or vice versa.

The above Decile tables sort price Percentiles into 10 equal groups (in ascending order), with table 2 ranking the previous 3 years prices, while table 3 ranks prices over the previous 10 years.

Example: In Table 2, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1656 for 60% of the time, over the past three years.

In Table 3, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1460 for 60% of the time, over the past ten years.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns pr head for skirted fleece wool.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.
