\* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

## MARKET COMMENTARY

Australian Dollar

78.36 US as of 30/11/2006

### NOTICE

The Australian Wool Exchange Ltd (AWEX) is reminding all Wool classers that re-registration period is drawing to a close. All Wool classers should have received their application for renewal in the mail. If you have not received this application please contact AWEX email [Woolclasser@awex.com.au](mailto:Woolclasser@awex.com.au) or phone AWEX on 02 9428 6140.

The current Wool classer stencil will cease to be active in early 2007 and a new stencil/stamp for the next three years will need to be applied to all bales of classed wool.

Gregory Sawyer  
Wool classer Registrar - Australian Wool Exchange Ltd

### NORTHERN REGION – Newcastle Sale N22/06

Tuesday – saw a mixed result for merino fleece, lower styles lost ground while more stylish types particularly Spinners styles attracted good competition and were up to 40 cents dearer than the close of the previous Newcastle sale. Best & Good styles fell 10 cents compared to last weeks Sydney sale. Broader types lost about 5 cents on a limited offering. Best skirtings up 10 cents, others unchanged. Crossbreds slightly lower, on limited offering. Fine locks 5-10 dearer, others slightly cheaper. Crutchings were firm on a stylish selection

On Wednesday – there was good support for Spinners types, with two ultra fine lines posting season high prices. Best & Good style fleece at the finer edge were mostly unchanged, with a few lower styles marginally cheaper. Broader microns were generally unchanged on a limited offering. Skirtings, oddments & Crossbred were firm-unchanged.

Thursday – saw a solid finish to the week with good competition for better types. Spinners continued to rise, lifting by around 50 cents in the 16-18 micron range. Best style <40 nkt were also keenly supported, rising by 10 cents with odd lots up to 20 cents higher. Good style 35 nkt types were mostly unchanged with the odd lot tending cheaper, particularly in the 18.5-19 micron range. 20-22 micron was also marginally cheaper with few lots on offer. Best skirtings were 1% dearer, others firm. Crossbreds were insufficient to quote, locks & Crutchings were firm.

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 7: Returns for fleece wool pr head, based on skirted weight of: 8 kg**

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 9: Returns for fleece wool pr head, based on skirted weight of: 6 kg**

Table 11 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 4kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 12: Returns for fleece wool pr head, based on skirted weight of: **3 kg**

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 13: Returns for fleece wool pr head, based on skirted weight of: 2 kg**
