AU BALES OFFERED		27,716		* 16.5 is the lowest Micron Price Guide (MPG) published by The Australian Wool Exchange (AWEX). Therefore MPG's below 16.5 micron are an estimate based on the best available information at the time of publication. Likewise, for any category where there is insufficient quantity offered to enable AWEX to quote, a quote will also be provided.																				
AU BALES SOLD		25,948																						
AU PASSED-IN%		6.4%		* Recording of 15 & 15.5 micron commenced in October 2017, and as a result some historic data is not yet available for those MPG's. Where historic data is not available an estimate based on '16 micron statistics' and incorporating the existing 15 & 15.5 micron data, will be provided as a guide.																				
AUD/USD		0.6577 1.2%

MARKET COMMENTARY Source: AWEX

The market has started the new selling season in a similar fashion to what has transpired over recent months, with smaller-than-normal offerings, and currency being the largest driver of market movements. The opening sale of the season is traditionally larger (being the first opportunity for sellers wanting to offer in the new financial year). This year, that was not the case; with 27,716 bales on offer, this was the smallest opening sale of the season since AWEX records began (1997), and 6,525 bales (19.1%) less than last season's opening.

The small offering received strong support across multiple buying houses. Currency was expected to play a significant role after the US dollar hit historic lows during the week; however, the market held up remarkably well. In the merino sector, results were mixed, while a buying squeeze resulted in spirited bidding for wool 20.5 microns and broader, pushing those prices higher.

By the close of trade, movements in the Merino MPGs ranged between +16 and -30, while the crossbred sector added 16-25 cents. These gains, combined with a generally unchanged skirting market and a stronger carding market, played a significant role in the one-cent rise in the EMI, which closed the week at 1,208.

Next week is expected to be similar in size. There are currently 29,015 bales rostered nationally.

Definitions:

* A Percentile, is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general a percentile between 25% and 75% is considered normal, a percentile below 25% is considered below normal and a percentile above 75% is considered above normal.

Three and ten year percentiles shown on the bottom line of table 2 & 3 (above) and in table 1 (on page 1), detail the amount of time during the past 3 & 10 years where the market has traded either at or below its current price.

* Deciles are a method of sorting ranked data into 10 equal groups. The data may be ranked from largest to smallest or vice versa.

The above Decile tables sort price Percentiles into 10 equal groups (in ascending order), with table 2 ranking the previous 3 years prices, while table 3 ranks prices over the previous 10 years

Example: In Table 2, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1513 for 60% of the time, over the past three years.

In Table 3, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1684 for 60% of the time, over the past ten years.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns pr head for skirted fleece wool.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.
