* Note: Due to the irregular market quoting for some micron categories, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. In the instance where AWEX MPG's are not available for any micron, an estimated MPG will be shown, based on the best available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

92.90 US as of 3/12/2009

NORTHERN REGION – Sale S23/09 (49,504 bales offered nationally)

Wednesday

Merino Fleece: The market was likely to be dearer on Wednesday, given the premiums being paid on Wooltrade earlier in the week. 19.5 microns and broader rose by 20-25 cents, 18 to 19 microns were 10-20 dearer while the fine end posted only minor movements.

Merino Skirting's: Wide spread and strong competition had all descriptions around 10 cents dearer.

Oddments: Support for lock's waned, bringing them back by 10 cents, crutching's remained firm while stains rose by 20 cents.

Crossbreds: 27 to 30 microns remained firm to sellers favour.

Offering: 7,372 bales were offered in the North with 6.8% Passed In.

Thursday

Merino Fleece: Despite a good start in the first hour, prices eased as the sale progressed. Final day averages were mostly 5-10 cents lower with the weakness evident across the micron spectrum. There were however some lots in the 15-17 micron area that did edge a few cents higher.

Merino Skirting's: Solid support for all descriptions had merino Skirting's unchanged.

Oddments: Locks were 5 cents dearer, crutching's were up to 10 cents dearer with a few best style/length types attracting good support.

Crossbreds: A similar pattern to merino fleece had most types easing by a few cents.

Offering: 7,108 bales were offered in the North with 3.5% Passed In.

49,617 bales are rostered for next week's sale. Jemalong are selling on Thursday 10th December.

3/12/09	Current MPG	1066	942	912	890	854	779	650	560	430	572		

A **Decile rank** is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A **percentile** is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 6: Returns for fleece wool pr head, based on skirted weight of: **8 kg**

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 8: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 11 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 4kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: **3 kg**

Table 13 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 2kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

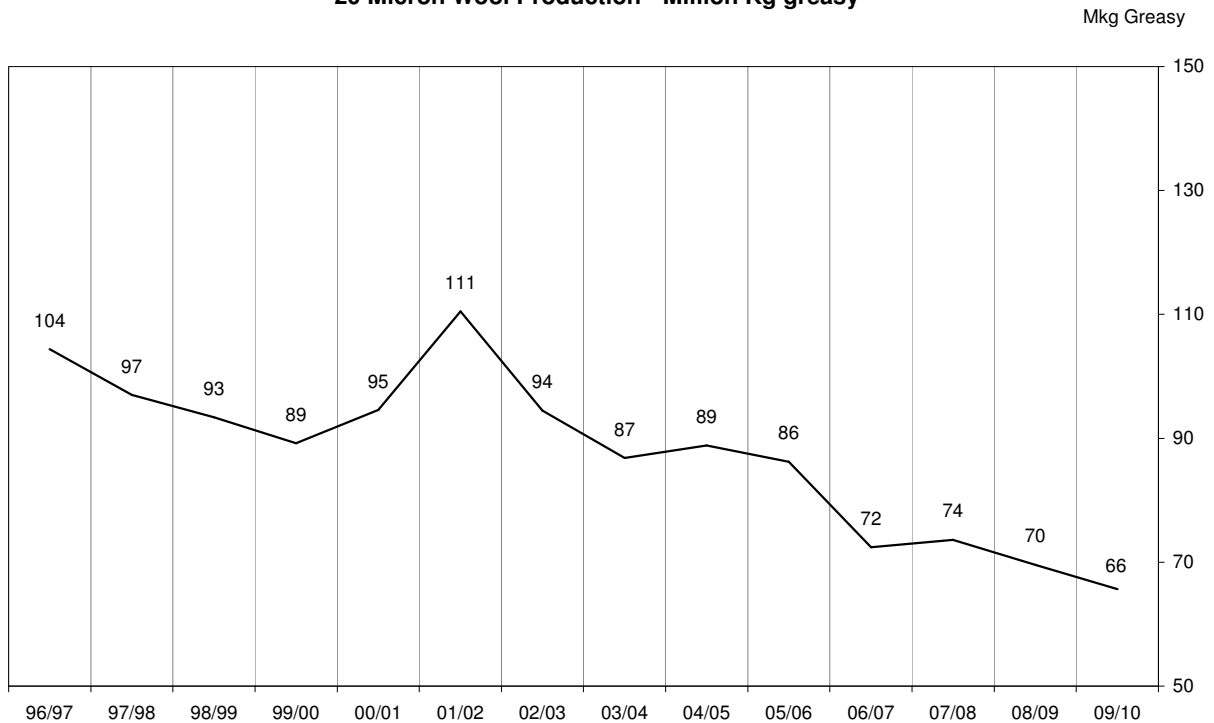

Fine Wool Production (Less than 19 microns)
Million Kg greasy

20 Micron Wool Production - Million Kg greasy
