\* Note: Due to the irregular market quoting for some micron categories, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. In the instance where AWEX MPG's are not available for any micron, an estimated MPG will be shown, based on the best available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

## MARKET COMMENTARY

Australian Dollar

90.17 US as of 4/03/2010

### NORTHERN REGION – Sale Week 36/09 (45,146 bales offered nationally)

#### Wednesday

**Merino Fleece:** After a solid start the market continued to fortify, with most microns closing 5 cents dearer. The better style and strength lots were up to 10 cents dearer with a strong focus in the finer micron ranges.

**Merino Skirting's:** continued to maintain widespread competition with all descriptions fully firm and some burrier lots finishing in sellers favour.

**Oddments:** Lock's and stains fell away, losing 15-20 cents off their previous value; however crutching's continued with good support (closing fully firm).

**Crossbreds:** were generally 10 cents lower for the 27 to 29 micron lots, the broader end was only slightly easier.

**Offering:** 5,174 bales were offered in the North with 5.3% Passed In.

#### Thursday

**Merino Fleece:** Despite some support for odd fine lots (better style & strength); buyers have retreated across most microns with the inferior types most affected. 18 to 21 microns fell 5-10 cents.

**Skirting's:** Good solid competition and support left all descriptions fully firm.

**Oddments:** Lock's continued to fall, losing 10 cents, while crutching's & stains remained firm.

**Crossbreds:** The fine end lifted, while 28 to 30 microns were generally unchanged.

**Offering:** 8,395 bales were offered with 14.9% Passed In.

37,747 bales are rostered for next week's sale. Jemalong are selling on Wednesday 10<sup>th</sup> March.

1	90%	1290	1041	1005	988	974	958	915	857	630	584
4/03/10	Current MPG	1096	971	955	939	925	835	680	579	446	659

A **Decile rank** is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A **percentile** is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 6: Returns for fleece wool pr head, based on skirted weight of: 8 kg**

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 8: Returns for fleece wool pr head, based on skirted weight of: 6 kg**

Table 9 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 6kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 9: Returns for fleece wool pr head, based on skirted weight of: 5 kg**

Table 11 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 4kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 11: Returns for fleece wool pr head, based on skirted weight of: 3 kg**

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 12: Returns for fleece wool pr head, based on skirted weight of: 2 kg**
