AU BALES OFFERED		37,650	* 16.5 is the lowest Micron Price Guide (MPG) published by The Australian Wool Exchange (AWEX). Therefore MPG's below 16.5 micron are an estimate based on the best available information at the time of publication. Likewise, for any category where there is insufficient quantity offered to enable AWEX to quote, a quote will also be provided.																		
AU BALES SOLD		35,547	* Recording of 15 & 15.5 micron commenced in October 2017, and as a result some historic data is not yet available for those MPG's. Where historic data is not available an estimate based on '16 micron statistics' and incorporating the existing 15 & 15.5 micron data, will be provided as a guide.

MARKET COMMENTARY Source: AWEX

The market recorded further solid rises in this series. The national quantity rose compared to last week, due in part to the higher prices last series, which encouraged more sellers to the market. 37,650 bales were on offer.

The first day of selling was buoyant, and from the opening lot, it was apparent that the market was heading in a positive direction. By the end of the day, the individual MPGs across the country for merino fleece had risen by 6-41 cents, only the 17-micron MPG in the North resisted the trend, falling by one cent. The EMI added a healthy 15 cents for the day.

On the second day only Sydney and Melbourne were in operation and the market generally continued to rise, predominantly in the medium to broad microns. In the South, the 21 micron MPG climbed to 1,449 cents (its highest point since the 10th of May 2023). The EMI added another 8 cents, finishing the series 23 cents higher, at 1,215. The EMI is now at its highest point since the 10th of January 2024.

Minimal currency movement since the close of the previous series meant that the market gains were also realised in US dollar terms, with the EMI gaining 18 US cents, closing the week at 760 US. This was the highest weekly rise in US terms since April last year.

Next week's national offering is expected to increase, again buoyed by more sellers being attracted to the market. There are currently 41,243 bales rostered Nationally.

Definitions:

* A Percentile, is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general a percentile between 25% and 75% is considered normal, a percentile below 25% is considered below normal and a percentile above 75% is considered above normal.

Three and ten year percentiles shown on the bottom line of table 2 & 3 (above) and in table 1 (on page 1), detail the amount of time during the past 3 & 10 years where the market has traded either at or below its current price.

* Deciles are a method of sorting ranked data into 10 equal groups. The data may be ranked from largest to smallest or vice versa.

The above Decile tables sort price Percentiles into 10 equal groups (in ascending order), with table 2 ranking the previous 3 years prices, while table 3 ranks prices over the previous 10 years

Example: In Table 2, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1544 for 60% of the time, over the past three years.

In Table 3, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1685 for 60% of the time, over the past ten years.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns pr head for skirted fleece wool.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.
