* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

87.31 US as of 6/12/2007

NORTHERN REGION – Sydney Sale S23/07

On Tuesday - The market eased over all with the fine end (less than 17.5 micron) most affected. 18 to 19 micron attracted strong competition gaining 5 cents with the better style & strength lots even higher. 16-17 microns fell some 20 cents while 17.5 microns were 10 cents lower. 19.5 to 22 microns dropped about 10 cents. Merino skirtings 19 micron and broader were fully firm while 18.5 and finer slipped 10 cents. Locks generally retained their previous levels, crutchings were unchanged on a limited offering and stains closed 10 cents lower. Crossbreds eased slightly with 26 to 29 microns 5 to 10 cents cheaper and 30 microns and broader unchanged. Top 3 buyers were Tech wool, A.S. Gedge & Modiano. 7,881 bales offered, 6.8% Passed-In

On Wednesday – The market regained yesterdays lost ground (driven by the fine to medium microns with 40nkt and stronger). 18.5 microns and finer were 15-20 cents dearer with the better strength types up to 30 cents higher. 19 to 20 microns were up 10 cents with ruses of up to 20 cents for the higher Nkt types. 20.5 micron and broader remained generally unchanged. All merino skirtings were fully firm, locks were a little irregular although generally unchanged, crutchings closed in sellers favour and stains remained unchanged. The crossbred market was a little mixed with 26 to 27 microns 5 cents dearer while the 28 to 30 micron lots eased by 5 cents. Top 3 buyers were Tech wool, A.S. Gedge & Modiano. 7,270 bales offered, 10.0% Passed-In.

On Thursday – Merino fleece rose 10-15 cents for most microns from 17 to 21, with buyers once again chasing the stronger Nkt types. Lots with low mid breaks were receiving premiums of 20 cents or more. Strong competition on skirtings kept all descriptions fully firm. Locks closed the day in sellers favour while crutchings remained firm and stains 5-10 cents dearer. Crossbreds ended the day slightly higher across most microns with 26 to 32 microns up to 5 cents dearer. Top 3 buyers were Tech Wool, Grain Corp & G Schneider. 6,120 bales offered, 11.8% Passed-In.

Next Weeks offering consists of 64,073 bales (an increase of 16.9% on the previous estimate of 54,800). Next weeks Northern region sale will be held in Sydney over two days. This will be the last sale prior to the Christmas recess!

6/12/07	Current MPG	1256	1120	1028	965	934	875	717	625	464	589

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 7: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: **4 kg**

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 13: Returns for fleece wool pr head, based on skirted weight of: 2 kg
