\* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

## MARKET COMMENTARY

Australian Dollar 79.09 US as of 7/12/2006

### NOTICE

The Australian Wool Exchange Ltd (AWEX) is reminding all Wool classers that re-registration period is drawing to a close. All Wool classers should have received their application for renewal in the mail. If you have not received this application please contact AWEX email [Woolclasser@awex.com.au](mailto:Woolclasser@awex.com.au) or phone AWEX on 02 9428 6140.

The current Wool classer stencil will cease to be active in early 2007 and a new stencil/stamp for the next three years will need to be applied to all bales of classed wool.

Gregory Sawyer  
Wool classer Registrar - Australian Wool Exchange Ltd

### NORTHERN REGION – Sydney Sale S23/06

On Tuesday – the medium wool market was firm with 20-23 microns closing 5-10 cents dearer. The fine wool market struggled on the back of last weeks better style offering, resulting in a fall of 10-25 cents for 17-19 micron fleece categories. Best style skirtings remained fully firm while higher Vm types eased by 5 cents. 19-20 micron locks fell 5 cents while finer locks were firm, stains & Crutchings also remained firm. 25-27 micron crossbred eased 10-15 cents while the broader end of 28-30 micron closed fully firm in sellers favour.

On Wednesday – broader merino fleece gained ground with 20 micron & broader rising a further 5-10 cents. 19 micron & finer were generally unchanged although some 17-18 micron lines (lacking style & strength) closed irregular. Strong buyer support saw all merino skirtings fully firm, locks increased by 5 cents while crutchings & stains remained unchanged. Crossbreds also remained fully firm for the 27-30 micron categories.

On Thursday – the trend of the previous two days was reversed for the merino fleece market. 19.5 microns & finer rose 5-10 cents on the back of strong buyer competition, while 20 microns eased by 5 cents & 21 microns barely maintained their levels. Medium-Broad skirtings remained fully firm however finer micron skirtings were a little irregular. Locks were very firm tending dearer and crutchings were unchanged. The crossbred market closed 5 cents dearer for the 27-30 micron categories.

Comments: Maxine Blyton, Source: AWEX.

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 9 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 6kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 10: Returns for fleece wool pr head, based on skirted weight of: 5 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 11: Returns for fleece wool pr head, based on skirted weight of: 4 kg**

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 13: Returns for fleece wool pr head, based on skirted weight of: 2 kg**
