\* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

## MARKET COMMENTARY

Australian Dollar

78.12 US as of 8/02/2007

### NORTHERN REGION – Sydney Sale S32/06

On Tuesday – 21 micron and broader Merino fleece rose 10 cents, while the fine to medium microns (18-20 um) were firm to 5 cents dearer. 17 micron and finer were well supported for the better style and strength types while the lower style and strength types closed irregular. Merino Skirtings remained firm and were unchanged for most microns of good style & length (between 4-8% Vm). Oddments were strongly supported with locks rising 5-10 cents and crutchings rising 10-15 cents. 27-30 micron crossbred wool rose around 5 cents.

On Wednesday – Broader merino fleece rose, while the finer microns eased. 17.5 micron and finer retreated 20-25 cents, 18 microns fell by 15 cents while 19 microns were firm. 20 micron and broader rose by 5-10 cents. Merino skirtings opened in sellers favour only to close fully firm for all descriptions. A good selection of fine locks saw these types rise 5-10 cents, while the broader micron LKS, crutchings and stains remained firm. Crossbred closed firm to sellers favour.

On Thursday – the market dipped 10-20 cents, 18-20 microns set the tone by falling 15-20 cents, 20.5 micron and broader were less affected (easing by 5-10 cents) while 17.5 and finer drifted 5 cents lower on a limited selection. Merino skirtings opened strongly however any rises were diminished by the close of trade with most styles generally unchanged. In the oddments, fine locks ended the day 5 cents dearer, others were unchanged. Crutchings and stains also gained 5-10 cents.

Next week offering consists of 74,392 bales (a small increase of 0.8% on the previous estimate of 73,810 bales).

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 7: Returns for fleece wool pr head, based on skirted weight of: 8 kg**

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 9: Returns for fleece wool pr head, based on skirted weight of: 6 kg**

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: **4 kg**

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 13: Returns for fleece wool pr head, based on skirted weight of: 2 kg**
