AU BALES OFFERED		38,811	* 16.5 is the lowest Micron Price Guide (MPG) published by The Australian Wool Exchange (AWEX). Therefore MPG's below 16.5 micron are an estimate based on the best available information at the time of publication. Likewise, for any category where there is insufficient quantity offered to enable AWEX to quote, a quote will also be provided.																	
AU BALES SOLD		34,995	* Recording of 15 & 15.5 micron commenced in October 2017, and as a result some historic data is not yet available for those MPG's. Where historic data is not available an estimate based on '16 micron statistics' and incorporating the existing 15 & 15.5 micron data, will be provided as a guide.

MARKET COMMENTARY Source: AWEX

The weaker trend remained in place at this week's auctions. Sluggish demand continued within the Merino wool sector, particularly for fine types less than 18.5 microns as European buying is subdued. Inquiry and business for all other types and descriptions in the crossbred and carding segments is relatively consistent without being overly abundant for orders. These price-sensitive types are slowly recovering toward their normal levels.

Australian-based exporters dominated the buyers lists with the larger Chinese top makers and indents playing a limited supporting role (as China enters their Spring Festival holiday, which this year runs from 7-16th February). Some premium buying from Italy appeared on very specific clips of the right spec, with only the very best wools receiving premiums of 300 to 450ac above standard types of a similar micron, with those types generally conceding 25ac by the close of trade.

Prices for Merino wool, 18.5 microns and broader, held on rather well but were still 5-10ac lower by week's end. This result was again assisted by currency movement. Cardings and crossbreds sold under a much more competitive environment and small gains were made daily to see closing basis 5/10ac higher for the week.

Next week will sell over three days to allow the volume in Melbourne to be sold in an orderly manner. Sydney has an abnormally low volume sale with just over 8,000 bales being offered

Definitions:

* A Percentile, is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general a percentile between 25% and 75% is considered normal, a percentile below 25% is considered below normal and a percentile above 75% is considered above normal.

Three and ten year percentiles shown on the bottom line of table 2 & 3 (above) and in table 1 (on page 1), detail the amount of time during the past 3 & 10 years where the market has traded either at or below its current price.

* Deciles are a method of sorting ranked data into 10 equal groups. The data may be ranked from largest to smallest or vice versa.

The above Decile tables sort price Percentiles into 10 equal groups (in ascending order), with table 2 ranking the previous 3 years prices, while table 3 ranks prices over the previous 10 years

Example: In Table 2, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1660 for 60% of the time, over the past three years.

In Table 3, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1468 for 60% of the time, over the past ten years.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns pr head for skirted fleece wool.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.
