* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

94.26 US as of 8/05/2008

NORTHERN REGION – Sydney Sale S45/07

On Wednesday – The market contracted on the back of a lower style offering with 19.5 to 20 microns coming under the most pressure, falling 40-50 cents. 21 microns and broader were down by 20 cents with the higher yielding lots finding some support. 19 microns and finer were 25-30 cents cheaper with some odd Best style and strength lots retaining previous levels. Merino skirtings fell across the board with the better style and length types with low VM 10-20 cents easier while the burrier and shorter types were 20 cents lower. Washing locks remained unchanged while carbo types dropped 20 cents. Crutchings were generally 10 cents cheaper as were 28 to 30 micron crossbreds. 7,759 bales were offered with 21.7% Passed-In.

On Thursday – The market crept in the right direction with 19.5 to 20 micron rising 5-10 cents (better strength and higher yielding types were most affected). 21 micron and broader closed in sellers favour while the finer end (<19 microns) remained generally unchanged. All merino skirting descriptions were fully firm, locks 10-15 cents dearer with 20 microns and finer most affected. Crutchings remained fully firm while stains were up 5 cents. Crossbreds also firmed, gaining 5 cents for 27-30 microns. 5,007 bales were offered with 6.6% Passed-In.

An estimated offering of 49,236 bales have been rostered for next week's sale (a decrease of 0.3% on the previous estimate of 51,060 bales).

8/05/08	Current MPG	1143	944	882	860	837	769	667	599	419	429

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 7: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: 4 kg

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 13: Returns for fleece wool pr head, based on skirted weight of: 2 kg
