* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

93.69 US as of 8/11/2007

NORTHERN REGION – Newcastle Sale N19/07

On Tuesday - prices remained steady. The few spinners types available were well sought after and generally traded at similar rates to the last Newcastle sale held three weeks ago (although a few lots around 16.5 microns were slightly cheaper). Lower styles (particularly at the finer end) were mostly unchanged to slightly cheaper when compared to last Thursday's Sydney sale. Best brokenes were well supported and traded to solid premiums over other types. As with the fleece, lower styles were unchanged to marginally cheaper when compared to last week. Odd pockets of Best style Locks & Crutchings were well supported, up to 2% dearer while others remained unchanged. Fine crossbreds (26/27 microns) were slightly dearer; others remained unchanged on a limited offering. 6,187 bales offered, 13.7% Passed-In.

On Wednesday – the market remained firm. Spinners increased in both quantity and quality and prices rose accordingly with 16 to 18 microns spinners attracted good support. Best and Good style's at the finer end remained largely unchanged on yesterday however, with the odd better type edging slightly ahead. Meanwhile the broader microns made encouraging 5-10 cent gains on a very limited offering. Better skirtings were 1-2% dearer while others remained firm. Locks & Crutchings were slightly dearer for the more stylish types, crossbreds also managed to make slight gains on yesterday's levels. 5,708 bales offered, 3.2% Passed-In.

On Thursday – 8 lots appraised as 1pp were on offer as part of a very stylish offering. Competition was keen at the finer end, particularly at the start of the day when best spinners in the 14 to 16.5 micron range increased 50 cents. Lower styles and strengths were in line with yesterday with a few broader types slightly dearer. The top price for the day was 64,000 cents greasy (the 4th highest price for the season). Once again best brokenes were well supported rising 1-2% while lower styles remained firm. Locks & Crutchings were mostly unchanged with a few very fine lots slightly cheaper. Crossbreds were insufficient to quote. 4,410 bales offered, 4.6% Passed-In.

Next Weeks offering consists of 61,632 bales (an increase of 3.5% on the previous estimate of 59,572). Next weeks Northern region sale will be held in Sydney over three days.

8/11/07	Current MPG	1202	1077	987	932	881	827	685	605	436	572

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 7: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: 4 kg

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 13: Returns for fleece wool pr head, based on skirted weight of: 2 kg
