^{*} Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

66.90 US as of

9/10/2008

NORTHERN REGION - Sale S15/08

On Wednesday - A solid market had 18.5 microns and finer fully firm to sellers favour. 19 to 19.5 microns were up to 10 cents dearer while 20 microns were tending in buyers favour. 20.5 microns and broader were firm also tending in sellers favour. Merino skirtings were generally unchanged for most descriptions with the 19 micron and finer types a little easier while 19.5 micron a broader closed in sellers favour (for the 4%-8% VM types). There was mixed results in the oddments market with locks 5 cents easier while crutchings were 10 cents dearer, stains remained unchanged on a limited selection. The crossbred market was strong with a good selection of 27 to 32 micron lots, these lots posted gains of 15-20 cent. 7,896 bales were offered with a passed-In rate of 6.7%.

On Thursday - Once again a solid day for most microns, 19 to 19.5 microns were 10 cents dearer while 20 microns and broader were firm. A reasonable selection of 18 micron and finer were offered, mainly good to best style, those lots less than 40 Nkt slipped 20-30 cents while the sounder types +45 Nkt traded at similar levels to the previous day. All Merino skirtings remained fully firm for the 4%-8% Vm types, however better style and length types (additionally measured) attracted solid premiums. Locks & crutchings were 10 cents dearer with 18 micron locks even higher. Stains also were 5-10 cents dearer. The crossbred market continued to rise with 25 to 28 microns gaining 10 cents and the 29 to 32 micron lots 15-20 cents dearer. 7,838 bales were offered with a passed in rate of 10.9%.

Next weeks offering is estimated at 51,993 bales, a decrease of 5.3% on the previous estimate of 54,925 bales.

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In gereral, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

(week ending 9/10/2008)

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 4kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

(week ending 9/10/2008)

Table 13 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 2kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.
