AU BALES OFFERED		47,593	* 16.5 is the lowest Micron Price Guide (MPG) published by The Australian Wool Exchange (AWEX). Therefore MPG's below 16.5 micron are an estimate based on the best available information at the time of publication. Likewise, for any category where there is insufficient quantity offered to enable AWEX to quote, a quote will also be provided.																				
AU BALES SOLD		44,261	* Recording of 15 & 15.5 micron commenced in October 2017, and as a result some historic data is not yet available for those MPG's. Where historic data is not available an estimate based on '16 micron statistics' and incorporating the existing 15 & 15.5 micron data, will be provided as a guide.

MARKET COMMENTARY Source: AWEX

Sales resumed this week after the annual three-week Christmas recess. Over 50,000 bales had been forecast for sale, however the final count saw 47,593 bales offered.

Being the first buying opportunity in nearly a month, there were many buyers keen to secure quantity, resulting in widespread demand, with aggressive buying and spirited bidding. Price increases were realised from the opening lot and continued virtually unabated until the final hammer. Premiums were again being paid for wool possessing favourable additional measurement results. In contrast to this, a large selection of wools with very high mid-breaks (greater than 70%), were continually discounted, as buyers struggled to average them into their purchases. By the end of the series prices had generally increased by 25-70 cents. These gains helped to push the AWEX NRI up by 48 cents, to close week at 1948 c/kg.

Skirtings followed a similar path to the fleece, prices continually tracked upward. Generally finishing the week 40-70 cents dearer. The crossbred sector also had a strong start to the new calendar year. 26.0 micron all the way through to 32 micron experienced general price increases of 30-60 cents, the better prepared lines recording the largest gains.

Next week the national quantity increases, as wool accumulated over the recess comes onto the market. Currently, there are 53,908 bales forecast for sale.

Definitions:

* A Percentile, is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general a percentile between 25% and 75% is considered normal, a percentile below 25% is considered below normal and a percentile above 75% is considered above normal.

Three and ten year percentiles shown on the bottom line of table 2 & 3 (above) and in table 1 (on page 1), detail the amount of time during the past 3 & 10 years where the market has traded either at or below its current price.

* Deciles are a method of sorting ranked data into 10 equal groups. The data may be ranked from largest to smallest or vice versa.

The above Decile tables sort price Percentiles into 10 equal groups (in ascending order), with table 2 ranking the previous 3 years prices, while table 3 ranks prices over the previous 10 years.

Example: In Table 2, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1967 for 60% of the time, over the past three years.

In Table 3, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1435 for 60% of the time, over the past ten years.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns pr head for skirted fleece wool.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.
