* Note: Due to the irregular market quoting for some micron categories, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. In the instance where AWEX MPG's are not available for any micron, an estimated MPG will be shown, based on the best available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

88.84 US as of 11/02/2010

NORTHERN REGION – Sale S33/09 (50,371 bales offered nationally)

Wednesday

Merino Fleece: The market was generally unchanged with the finer microns (<17.5) up to 10 cents dearer, 18 to 19.5 were just off par while 20 microns and broader were firm to slightly dearer.

Merino Skirting's: Wide spread competition kept prices rising, with 19 micron and broader gaining 10 cents for most descriptions.

Oddments: Strong competition across all categories had lock's 5-10 cents dearer, crutching's were very firm and stains rose by 10-15 cents.

Crossbreds: 27 to 28 micron eased slightly while 30 micron and broader picked up a few cents.

Offering: 6,652 bales were offered in the North with 5.9% Passed In.

Thursday

Merino Fleece: A very strong market had all microns dearer from the outset. Sydney was the only centre selling on the Eastern sea board which focused buyer pressure through to the close. Most microns posted a 10 to 15 cent rise, with the fine end 20-25 cents dearer (with better style and strength types most affected)

Skirting's: a solid market with good buyer support left all descriptions fully firm and unchanged.

Oddments: Locks drifted lower finishing 10 cents down by the end of trading.

Crossbreds: closed slightly weaker with 27 to 29 microns 3-5 cents easier.

Offering: 4,308 bales were offered with 3.0% Passed In.

48,643 bales are rostered for next week's sale. Jemalong are selling on Thursday 18th Feb.

11/02/10	Current MPG	1101	993	979	959	925	835	681	609	462	676

A **Decile rank** is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A **percentile** is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 6: Returns for fleece wool pr head, based on skirted weight of: **8 kg**

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 8: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 11 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 4kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: 3 kg

Table 13 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 2kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Fine Wool Production (Less than 19 microns)
Million Kg greasy
