^{*} Note: Due to the irregular market quoting for some micron catagories, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. In the instance where AWEX MPG's are not available for any micron, an estimated MPG will be shown, based on the best available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

93.21 US as of 12/11/2009

NORTHERN REGION - Sale S20/09 (48,426 bales offered nationally)

Wednesday

Merino Fleece: Under pressure from the advancing AUD the market retreated. 19 microns and finer fell 15-20 cents while 19.5 microns and broader closed 10-15 cents lower.

Merino Skirting's: Also lost ground with the 5% Vm and higher lots generally 10 cents cheaper. The lower Vm types were less affected.

Oddments: Locks were 5-10 cents cheaper for 19 micron and finer, while 20 micron and broader were generally unchanged. Crutching's and stains also remained firm.

Crossbreds: mixed results, with 27-29 microns slightly easier, while 30 microns and broader were a littler firmer.

Offering: 5,658 bales were offered in the North with 8% Passed In.

Thursday

Merino Fleece: Despite the stronger AUD, most microns closed very firm to a little dearer, except the 19.5 to 20 micron and 17 micron categories, which were up to 10 cents easier.

Merino Skirting's: on the back of good competition, all descriptions remained full firm.

Oddments: Locks ell a further 5 cents today, crutching's also lost around 10 cents, while stains remained firm.

Crossbreds: Lacked good support resulting in 26 to 30 microns falling 5-10 cents.

Offering: 6,391 bales were offered in the North with 5.7% Passed In.

47,829 bales are rostered for next week's sale, Jemalong are selling on Wednesday November 18.

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

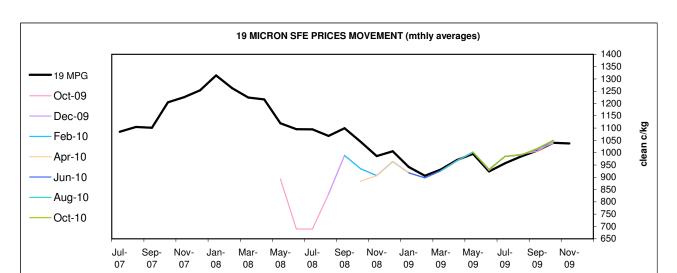

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In gereral, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 6: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 8: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 10: Returns for fleece wool pr head, based on skirted weight of: 4 kg

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

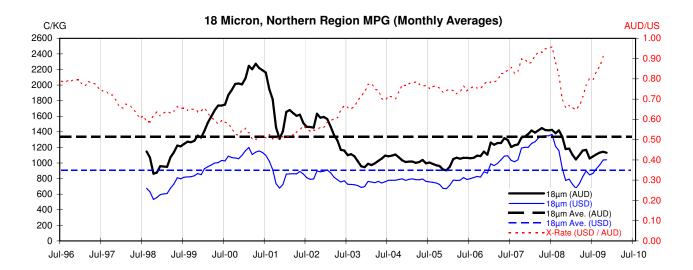

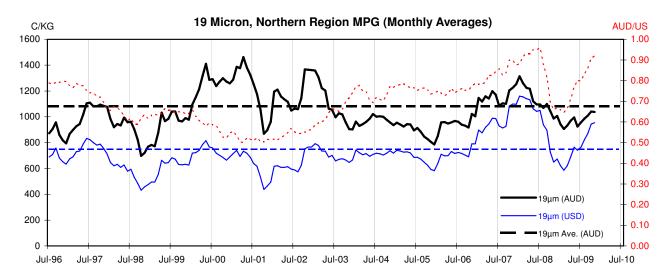

Table 12: Returns for fleece wool pr head, based on skirted weight of: 2 kg
