* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

92.22 US as of 15/10/2009

NORTHERN REGION – Sale S16/09 (48,392 bales offered nationally)

Wednesday

Merino Fleece: After a soft start the market found some support, 19.5 microns finished 5-10 cents cheaper while 19 microns attracted attention closing around 5 cents dearer. The fine end had only minor movements with the 18 microns easing 5 cents, while 17 microns and finer were very firm to sellers favour.

Merino Skirting's: also lost around 10 cents with support for the lower Vm types waning the most, burrier lots were least affected.

Oddments: Lock's have remained unchanged, while crutching's finished in sellers favour and stains closed fully firm.

Crossbreds: 27 to 30 microns were down a little, losing 3-5 cents.

Offering: 7,389 bales were offered in the North with 8.2% Passed In.

Thursday

Merino Fleece: Buyers pushed the market higher in the face of a stronger AUD. The medium to fine microns rose 10 to 15 cents under strong competition, while the broader end was 5 cents dearer.

Merino Skirting's: Solid support had all descriptions recouping all of yesterday's losses as buyers felt the pressure of a small offering.

Oddments: Lock's reduced as the sale progressed, closing 20-25 cents lower while crutching's & stains gained 10 to 20 cents (balancing out the overall oddment market).

Crossbreds: A smaller offering left 27 to 30 microns generally unchanged.

Offering: 4,675 bales were offered in the North with 9.3% Passed In.

48,228 bales are rostered for next week's sale. Jemalong are selling on Wednesday 21st October.

1	90%	1292	1045	1006	989	979	962	917	859	632	579
15/10/09	Current MPG	1036	898	869	834	810	766	700	577	446	570

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 6: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 8: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 11 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 4kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: 3 kg

Table 13 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 2kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

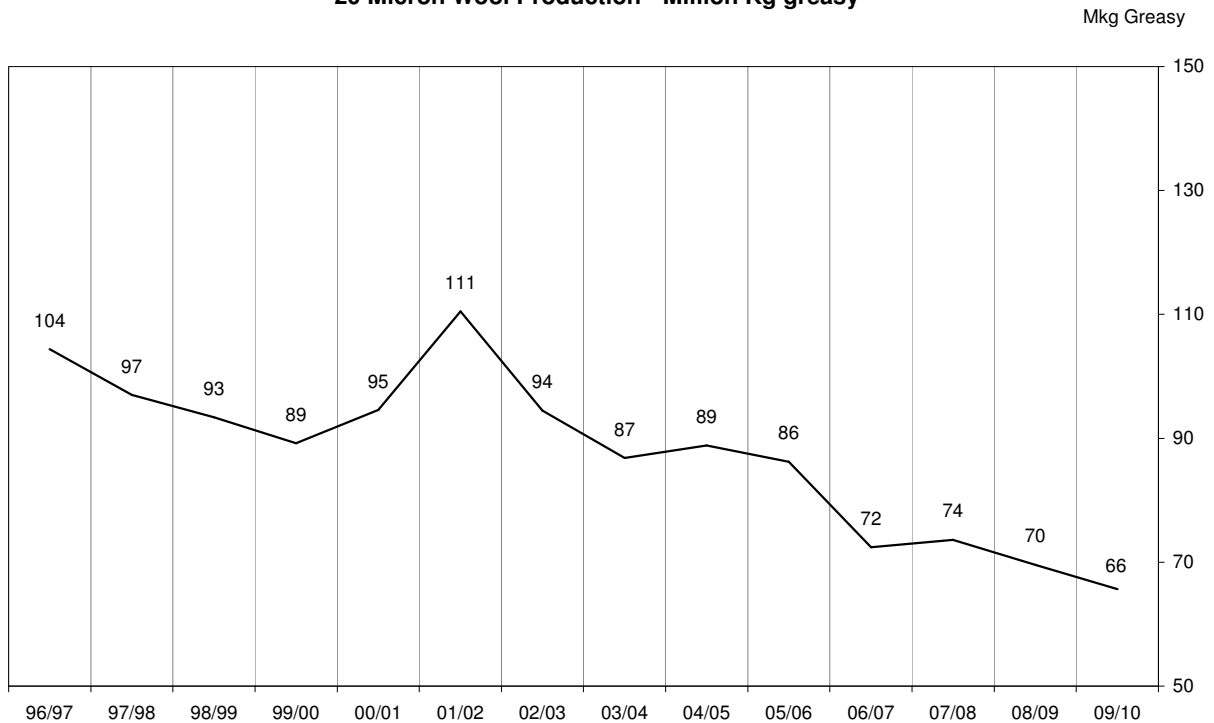

Fine Wool Production (Less than 19 microns)
Million Kg greasy

20 Micron Wool Production - Million Kg greasy
