AU BALES OFFERED		39,098	* 16.5 is the lowest Micron Price Guide (MPG) published by The Australian Wool Exchange (AWEX). Therefore MPG's below 16.5 micron are an estimate based on the best available information at the time of publication. Likewise, for any category where there is insufficient quantity offered to enable AWEX to quote, a quote will also be provided.																	
AU BALES SOLD		35,969	* Recording of 15 & 15.5 micron commenced in October 2017, and as a result some historic data is not yet available for those MPG's. Where historic data is not available an estimate based on '16 micron statistics' and incorporating the existing 15 & 15.5 micron data, will be provided as a guide.

MARKET COMMENTARY Source: AWEX

Subdued after the sharp rises recorded last week, the market, in general, recorded modest falls this week. Last week's price increases encouraged more sellers to the market, pushing the national offering to 41,065 bales (the largest sale since the mid-year recess). Although the sale was relatively large, Y.T.D., there have been 109,999 fewer bales offered, compared to the previous season (a drop of 20.3%).

High-yielding merino fleece lots containing favorable additional measurement results (AM), continued to attract strong buyer interest, the prices on offer for these types were at very similar levels to those of the previous week. Lower-yielding wool and wool with less favorable AM results didn't receive the same level of support, as buyers became more selective with their purchases, these types were the driving factor in the overall downward trend in the MPGs.

Across the country, MPG movements ranged between plus 11 and minus 30 cents. The softer market pushed the passed-in rate up to 8.3. The EMI added 1 cent on the first selling day, pushing the run of positive daily EMI movements to six. However, on day two the EMI dropped by 2 cents, meaning the EMI fell by the barest of margins, closing the week 1 cent lower at 1,138 cents.

Next week's offering is expected to fall. There are currently 36,553 bales rostered for sale in Sydney, Melbourne, and Fremantle.

Definitions:

* A Percentile, is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general a percentile between 25% and 75% is considered normal, a percentile below 25% is considered below normal and a percentile above 75% is considered above normal.

Three and ten year percentiles shown on the bottom line of table 2 & 3 (above) and in table 1 (on page 1), detail the amount of time during the past 3 & 10 years where the market has traded either at or below its current price.

* Deciles are a method of sorting ranked data into 10 equal groups. The data may be ranked from largest to smallest or vice versa.

The above Decile tables sort price Percentiles into 10 equal groups (in ascending order), with table 2 ranking the previous 3 years prices, while table 3 ranks prices over the previous 10 years

Example: In Table 2, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1619 for 60% of the time, over the past three years.

In Table 3, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1684 for 60% of the time, over the past ten years.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns pr head for skirted fleece wool.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.
