Note:

* Due to the irregular market quoting for some fine wool categories, figures shown relating to micron categories below 18 micron are an estimate based on the AWEX Premium & Discounts Report & other available information.

* For any category, where there is insufficient quantity offered to enable AWEX to quote, a quote will be provided based on the best available information.

* 10 Year data is not available for some micron categories, which may result in blank spaces in the table above.

Definitions:

* A Percentile, is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general a percentile between 25% and 75% is considered normal, a percentile below 25% is considered below normal and a percentile above 75% is considered above normal.

Three and ten year percentiles shown in the table above, detail the period of time during the past 3 & 10 years that the market has traded either at or below its current price.

The higher the percentile, the stronger the market.

MARKET COMMENTARY

One Australian Dollar = 1.032752 US as of: 18/04/2013

NORTHERN REGION –Sale Week 42/12 (49,828 bales offered nationally)

Wednesdays market opened weaker, as expected following Tuesdays Melbourne sale, however buyer support improved after the first hour leaving the indicator down 9 cents for the day. The finer microns of <17.5 remained firm on a limited offering, while 18-19 microns closed up to 10 cents easier and 19.5 to 21.5 microns were reduced by 15 cents. Merino skirtings lacked the same support as the fleece and subsequently lost up to 30 cents for most types. Locks & crutchings eased 5 cents, while stains finished 15 cents cheaper. 26 to 27 micron crossbreds fell 20 cents, while 29 to 30 microns remained unchanged, with 28 microns lifting by 5 cents. 8.1% Passed-In

Thursdays market was a welcome turn around, with prices moving back into positive territory & the NRI gaining almost 20 cents. 17 to 18 microns gained 20 cents while 18.5 to 21.5 microns were 25-30 cents dearer. The limited offering of 16.5 microns, showed impressive increases, with some of the lower style lots gaining as much as 75 cents. A strong turn around was also evident in the skirtings, with most microns 20 cents dearer. In the oddments, Locks, crutchings & stains were all 5-10 cents dearer. Crossbreds were generally firm with 27 to 29 microns firm while 30 micron and broader rose 3-5 cents. 4.1% Passed-In

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.
