* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

83.56 US as of 19/04/2007

NORTHERN REGION – Sydney Sale S42/06

On Wednesday – Following the Easter recess, the first day of trading in the Northern region saw the market retract slightly. 20-22 micron merino fleece slipped 5-10 cents while 19-19.5 increased by 5 cents. The finer end (18 microns and finer) remained very firm with the better style and strength types finding solid support amongst buyers. Merino skirtings closed very firm for all micron categories in the <4% Vm range, 5-8% Vm types came under solid pressure from increased competition gaining 5-10 cents. Locks retreated 15-20 cents for both washing and carbonising types while crutchings remained generally unchanged with good colour and bulk types coming under strong competition. The crossbred market generally lost about 10 cents with the bulk of the offering in the 27-30 micron range. 8,039 bales were offered with 8.9% Passed In.

On Thursday – The market closed on a solid footing with only minor movements recorded for the bulk of the offering. 18 micron merino fleece picked up 5-10 cents while 19-19.5 microns eased slightly. 20 microns and coarser closed very firm to sellers favour with the coarser microns most affected. Merino Skirting remained very firm today for all microns with <4% Vm, higher Vm types between 5-8% increased 5-10 cents. Locks eased a further 5-10 cents while crutchings gained 10 cents once again the best bulk & colour types were most affected. Stains were also very firm. 9,441 bales were offered with 5.0% Passed In.

Next weeks sale will be held over two days (Tuesday & Thursday) with an estimated offering of 59,600 bales (an increase of 8.8% on the previous estimate of 54,781 bales).

A **Decile rank** is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A **percentile** is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 7: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: 4 kg

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 13: Returns for fleece wool pr head, based on skirted weight of: 2 kg
