AU BALES OFFERED		36,230	* 16.5 is the lowest Micron Price Guide (MPG) published by The Australian Wool Exchange (AWEX). Therefore MPG's below 16.5 micron are an estimate based on the best available information at the time of publication. Likewise, for any category where there is insufficient quantity offered to enable AWEX to quote, a quote will also be provided.																		
AU BALES SOLD		30,221																			
AU PASSED-IN%		16.6%	* Recording of 15 & 15.5 micron commenced in October 2017, and as a result some historic data is not yet available for those MPG's. Where historic data is not available an estimate based on '16 micron statistics' and incorporating the existing 15 & 15.5 micron data, will be provided as a guide.																		
AUD/USD		0.7070 1.0%

MARKET COMMENTARY Source: AWEX

The wool market returned this week after the annual three-week recess. Upon opening in the Eastern centres, it was immediately apparent that the market was well below the pre-recess close.

Merino fleece MPGs lost 16-107 cents on day one, resulting in the clearance rate for that sector slipping to 71.8% as many sellers were not prepared for the extent of the correction. The overall clearance rate for the day was higher at 80.5%, lifted by improved clearances in other sectors. By the end of the day, the EMI had shed 51 cents (2.7%) making it the largest daily fall since October 2020. The stronger AUD contributed to the price reductions, with the losses not nearly as great when viewed in US dollars, where the EMI only lost 17 US cents (1.3%).

On the second day, only Sydney and Melbourne were in operation, and the market settled to a degree, with offer prices generally close to those of the previous day; however, the market still lost some ground. Movements in the merino fleece MPGs ranged between +6 and -56 cents. The EMI lost another 10 cents, closing the week 61 cents lower at 1,812 cents (-3.3%). In USD terms, the EMI lost 28 US cents for the week (-2.1%).

The volume on offer next week is forecast to decline. Currently, 26,040 bales are expected to be on offer nationally.

Definitions:

* A Percentile, is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general a percentile between 25% and 75% is considered normal, a percentile below 25% is considered below normal and a percentile above 75% is considered above normal.

Three and ten year percentiles shown on the bottom line of table 2 & 3 (above) and in table 1 (on page 1), detail the amount of time during the past 3 & 10 years where the market has traded either at or below its current price.

* Deciles are a method of sorting ranked data into 10 equal groups. The data may be ranked from largest to smallest or vice versa.

The above Decile tables sort price Percentiles into 10 equal groups (in ascending order), with table 2 ranking the previous 3 years prices, while table 3 ranks prices over the previous 10 years

Example: In Table 2, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1531 for 60% of the time, over the past three years.

In Table 3, a Decile Rank of 6 for 19 microns, shows 19 microns have traded at or below 1754 for 60% of the time, over the past ten years.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns pr head for skirted fleece wool.

The above shows estimated returns per head for skirted fleece wool. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 10: Returns pr head for skirted fleece wool.
