^{*} Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

91.48 US as of 21/02/2008

NORTHERN REGION – Sydney Sale S34/07

On Wednesday – As a result of a strong AUD 19 to 22 micron fleece fell 20-30 cents, with lower Nkt types (circa 30nkt) discounted as much as 40 cents. 18.5 microns and finer balanced out somewhat with the higher Nkt types (40 Nkt) well supported while the 25 to 35 Nkt lots lost ground. Merino Skirtings eased with low Vm types least affected, 4-5% types were 5-10 cents easier with the burrier 6-8% types 20 cents cheaper. Oddments were reduced across the board, locks fell 15-20 cents, crutchings fell 10-15 cents and stains were 10 cents cheaper. Crossbred also slipped 10 cents for 27-30 micron fleece. 7,479 bales were offered with a clearance rate of 80.5%.

On Thursday – Merino fleece levelled out closing the day generally unchanged. 19.5 micron and finer remained fully firm with the better style and strength lots tending in sellers favour. 20 micron and broader finished the day only just retaining their previous level. All merino skirtings were fully firm with some better style and length lots a little dearer. Locks, crutchings & stains all closed fully firm. Crossbreds closed firm for 27 to 32 microns. 5,122 bales were offered with a clearance rate of 88.8%

Next weeks offering consists of 58,286 bales (an increase of 6.1% on the previous estimate of 54,955).

<u>A Decile rank</u> is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In gereral, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 7: Returns for fleece wool pr head, based on skirted weight of: 8 kg

42.5%	Table 7:	Retur	ns for 1	leece	wool p	r head	d, base	d on s	kirted			8	kg

Table 7 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 8kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 8: Returns for fleece wool pr head, based on skirted weight of: 7 kg

Table 9 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 6kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 10: Returns for fleece wool pr head, based on skirted weight of: 5 kg

Table 11 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 4kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 13 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 2kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Fine Wool Production (Less than19 microns) Million Kg greasy
