* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

80.83 US as of 22/03/2007

NORTHERN REGION – Sydney Sale S38/06

On Wednesday –. Merino fleece fell while skirtings & oddments gained ground. Following the direction from yesterday's Southern market the Northern region fleece market dropped 20-50 cents. The fine microns were the least affected with 17.5 and finer closing 20-25 cents easier, 18-19 microns fell 30-40 cents while 20-24 microns dropped 45 to 50 cents. Merino skirting's defied the odds and actually gained some ground with 18.5 microns and finer 10 cents dearer and 19 microns and coarser with 3% to 6% Vm remaining very firm to sellers favour. Strong competition also had washing and carbo locks 15-20 cents dearer and carbo crutchings 10 cents higher while stains remained firm. 7% Passed In.

On Thursday –.The market opened on a solid note, retaining yesterday's levels. The competition increased as the sale progressed with most microns from 17.5-22.5 gaining 5-10 cents by the close, a stand out was the 19.5 micron area which gained 15-20 cents in a late rally. Merino skirtings saw robust competition with 19 micron and finer up to 10 cents dearer for types with 4% to 7% Vm and the coarser microns closed in sellers favour. Once again oddments finished on a strong note with Locks very firm to 5 cents dearer while crutchings gained a full 10 cents and stains closed very firm. Crossbreds remained generally unchanged with 27-28 microns ending the day firm and 30 microns barely there.

Next weeks offering consists of 62193 bales (an increase of 8.5% on the previous estimate of 57298 bales).

A **Decile rank** is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A **percentile** is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 7: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: **4 kg**

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 13: Returns for fleece wool pr head, based on skirted weight of: 2 kg
