* Note: Due to the irregular market quoting for some micron categories, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. In the instance where AWEX MPG's are not available for any micron, an estimated MPG will be shown, based on the best available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

92.75 US as of 22/04/2010

NORTHERN REGION – Sale Week 43/09 (45,798 bales offered nationally)

Wednesday

Merino Fleece: Early in the sale the market appeared to be firm (tending in buyers favour), however by the close of trade all merino fleece had increased, with the better type finer microns 10-15 cents dearer. Although buyers were still discounting the lower yielding, higher mid break and seedy lots.

Skirting's: While a little irregular due to the selection, skirting's were generally unchanged, with good buyer support evident for the burrier types.

Oddments: Lock's found support today, lifting 5 cents, while crutching's and stains closed at similar levels to last week despite being irregular.

Crossbreds: The offering consisted of a selection containing more than its fair share of non conforming lots. Those that did conform to C.O.P requirements found support and gained around 5 cents (for 27-29 microns).

Offering: 5,272 bales were offered in the North with 4.4% Passed In.

Thursday

Merino Fleece: Less than 1% Vm types were in strong demand pushing the FNF lots higher, while lower style & burrier types struggled. The overall tone was however unchanged to very firm.

Skirting's: Burry types attracted solid support finishing in sellers favour, while the lower Vm lots were a bit of the mark.

Oddments: Lock's lifted by up to 5 cents while crutching's remained fully firm for 20 microns and broader while the finer lots were 10 cents dearer. Stains remained unchanged.

Crossbreds: Had good support with 27 to 30 microns par to 5 cents dearer.

Offering: 9,403 bales were offered with 18.9% Passed In.

41,117 bales are rostered for next week's sale. Jemalong are selling on Wednesday 28th April.

22/04/10	Current MPG	1071	943	923	907	880	818	660	580	445	629

A **Decile rank** is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A **percentile** is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 6: Returns for fleece wool pr head, based on skirted weight of: **8 kg**

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 8: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 11 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 4kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: 3 kg

Table 13 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 2kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Fine Wool Production (Less than 19 microns)
Million Kg greasy

20 Micron Wool Production - Million Kg greasy

Mkg Greasy
