^{*} Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

70.85 US as of 23/04/2009

NORTHERN REGION - Sale S43/08

AWEX Market Comment

Wednesday

Merino Fleece: The market gained momentum as the sale progressed with solid support across a wide range as 18 to 21 microns rose generally 15-20 cents with increases in the finer end concentrated in the better style and strength lots. A small offering of Best/Spinner style 16.5 microns had this area 40 cents dearer

Merino Skirting's: Buyers were attracted to the finer end today with 18 microns and finer with 4% Vm and less up to 20 cents dearer, while 19 microns and broader were only slightly dearer. The burrier descriptions of 6-8% Vm remained fully firm.

Oddments: Good support had locks slightly dearer while crutching's and stains remained unchanged.

Crossbreds: Remained solid through out the day closing 5-10 cents dearer for 27-30 microns.

7181 bales were offered with 4.6% Passed-In.

Thursday

Merino Fleece: Fine microns surge again with another 30 cent rise; medium microns were up to 20 cents dearer while the broader wools gained 10-15 cents.

Merino Skirting's: Very strong competition pushed all descriptions a further 10-20 cents.

Oddments: Crutching's eased a little today on the back of an increased selection where as locks and stains remained fully firm.

Crossbreds: While not posting the same increases as the Merino market, crossbreds closed 3-5 cents dearer across most microns.

9,095 bales were offered with 4.7% Passed-In.

47,193 bales are rostered for next weeks sale, Jemalong are selling on Wednesday April 29.

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In gereral, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 6kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns for fleece wool pr head, based on skirted weight of: 5 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 10: Returns for fleece wool pr head, based on skirted weight of: 4 kg

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

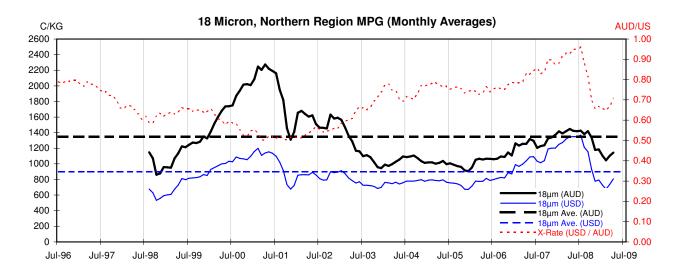

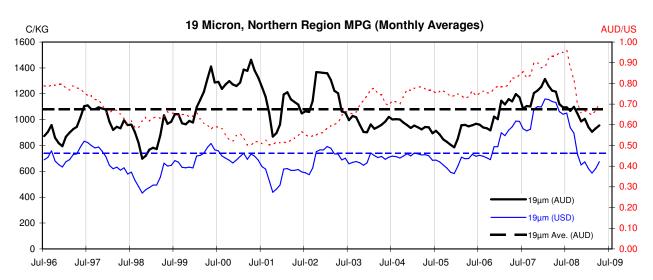

Table 12: Returns for fleece wool pr head, based on skirted weight of: 2 kg
