* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

87.90 US as of 24/01/2008

NORTHERN REGION – Sydney Sale S30/07

On Wednesday –The market firmed at today's sale with gains across all Merino microns. Both the very fine edge (16.5-17.0 microns) and the broader edge (23-24 microns) were least affected on limited numbers, however most other sectors were all around 20 cents clean dear. As with recent weeks the better types attracted solid competition and sold at good premiums over the lower styles. Merino skirtings were unchanged for the lower styles however were 1% dearer for the better types. Best Locks & crutchings were firm, lower types were slightly cheaper. Crossbreds were generally 5-10 cents dearer. Major buyers included Techwool, AS Gedge & ABB Wool Export. 8,447 bales were offered with a clearance rate of 95.6%.

On Thursday – the market lost ground overall, however there was marked difference between various types. The better style & strength types managed the most support and eased a modest 5 cents, with an odd lot remaining unchanged. 35 nkt types were mostly 5-10 cents cheaper while off-types and part tender types fell up to 20 cents clean. Better skirting types were well supported on an improved selection and firmed up to 10 cents clean. Lower styles remained unchanged. Locks were 1% dearer while crutchings remained firm. Crossbreds remained unchanged with most types in line with yesterday. Major buyers included, Southern Cross, Techwool & AS Gedge. 7,755 bales were offered with a clearance rate of 90.4%

Next weeks offering consists of 43,129 bales (an increase of 4.7% on the previous estimate of 41,200).

24/01/08	Current MPG	1328	1198	1100	1028	971	901	741	652	470	622

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 7: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: 4 kg

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 13: Returns for fleece wool pr head, based on skirted weight of: 2 kg
