\* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

## MARKET COMMENTARY

Australian Dollar

87.22 US as of 24/09/2009

### NORTHERN REGION – Sale S13/09 (46,529 bales offered nationally)

#### Wednesday

**Merino Fleece:** AWEX micron price guides retreated to finish the day more in line with the southern region. Broader MPG's closed generally 10 cents cheaper (tightening towards the close of trade) while the fine to medium MPG's were quoted as 15-20 cents cheaper. Despite the higher AUD and the fact the market was quoted as cheaper, two of the largest exporters felt the market remained firm if not tending dearer. Whilst offering volumes remain low and while business is being done, some buyers will try to take on a stock position, therefore small rises in the AUD will not necessarily correlate to a fall in the market.

**Merino Skirting's:** All descriptions remained steady with buyers attracted to the better length and lower Vm types.

**Oddments:** Locks had strong support improving by 10 cents, Crutching's remained steady tending in sellers favour, while stains dropped 10 cents.

**Crossbreds:** with little change, the finer microns finished in sellers favour while the broader microns drifted in buyers favour.

**Offering:** 6,931 bales were offered in the North with 3.4% Passed In.

#### Thursday

**Merino Fleece:** A turn around after yesterday's retreat had most microns recouping 5-10 cents. The medium to fine microns were generally 10 cents higher, it was however the lower Nkt lots that gained the most, lifting by up to 15 cents. The broader microns recorded a more modest increase of around 5 cents.

**Merino Skirting's:** Strong buyer support lifted burrier lots (greater than 5% Vm) by 10 cents, while the better length and lower Vm types rose by as much as 25 cents.

**Oddments:** Solid competition pushed locks 10 cents higher, crutching's 5 cents higher while stains remained unchanged.

**Crossbreds:** Closed fully firm to sellers favour for all categories.

**Offering:** 5,712 bales were offered in the North with 4.3% Passed In.

49,211 bales are rostered for next week's Newcastle sale.

1	90%	1292	1046	1007	990	979	962	917	860	632	579
24/09/09	Current MPG	1027	886	858	842	821	792	701	611	465	559

A **Decile rank** is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A **percentile** is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 6: Returns for fleece wool pr head, based on skirted weight of: **8 kg**

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 8: Returns for fleece wool pr head, based on skirted weight of: 6 kg**

Table 9 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 6kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 9: Returns for fleece wool pr head, based on skirted weight of: 5 kg**

Table 11 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 4kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

**Table 11: Returns for fleece wool pr head, based on skirted weight of: 3 kg**

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

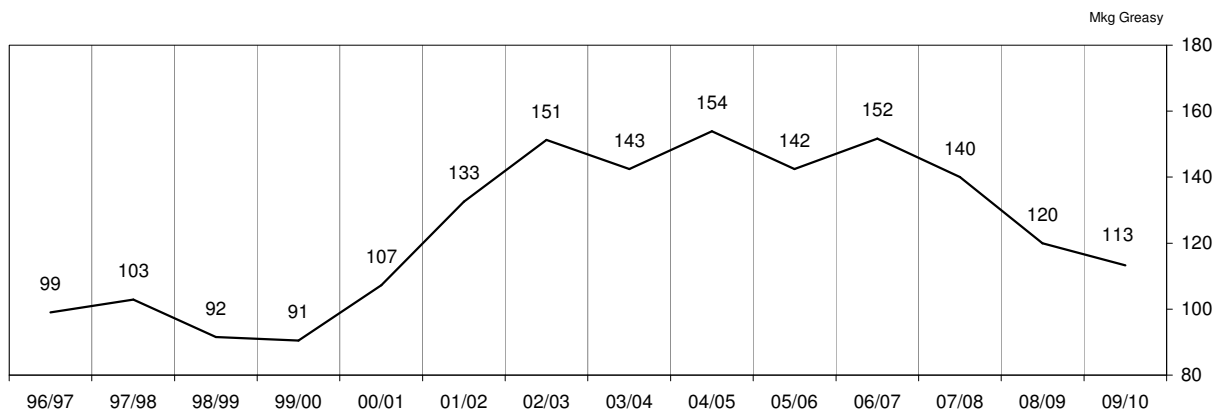

**Table 12: Returns for fleece wool pr head, based on skirted weight of: 2 kg**
