* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

89.97 US as of 25/10/2007

NORTHERN REGION – Sydney Sale S17/07

On Tuesday - buyers chased the better style and strength types resulting in merino fleece closing par to slightly easier. Merino fleece less than 19.5 microns and broader than 21 microns were 5-10 cents easier with the better strength types least affected while 20 to 20.5 microns picked up 5 cents. Buyers discounted heavily on low strength and high CVH lots across most micron categories, which can not be compared to last weeks Newcastle sale. Merino skirtings remained fully firm tending in sellers favour for all descriptions with 8% Vm and less. Strong competition had locks & Crutchings up 10 cents while stains rose 20. Only minor movements were recorded in the crossbreds with 26 to 27 micron fully firm and 28 to 30 microns easing by 3-5 cents. 7,411 bales offered, 6.9% Passed-In.

On Wednesday – buyers were still favouring the better strength and low mid break types, with these lots retaining similar levels to yesterday. 20 micron and finer were around 5 cents easier with the exception of 19 microns which slipped 10-15 cents as buyers discounted the low Nkt, high mid break lots. 21 micron and broader closed 5-10 cents lower. Strong competition once again had all merino skirtings fully firm tending in sellers favour for 8% Vm and less. Oddments also increased with locks up 5 cents, crutchings up 10 and stains up 10-15 cents. 27 to 29 micron crossbred closed 3-5 cents easier while 30 microns and broader remained unchanged. 6,427 bales offered, 10.5% Passed-In.

On Thursday – the market eased across the board with 18 to 19.5 microns 10-15 cents easier and 20 microns and broader 20 cents lower. The finer end of 17.5, were generally maintained with the higher Nkt types well supported. Once again buyers have punished the tender types and lots with a high mid break. Merino skirtings retained their previous levels for all descriptions while strong competition once again had locks up by 10-15 cents and crutchings and stains fully firm. Crossbreds were generally unchanged with reductions of 5 cents limited to 28 & 29 microns. 8,705 bales offered, 5.7% Passed-In.

Next Weeks offering consists of 66,122 bales (an increase of 15.3% on the previous estimate of 57,362). Next weeks Northern region sale will be held in Sydney over two days.

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 7: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 9: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 11: Returns for fleece wool pr head, based on skirted weight of: 4 kg

Table 12 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 3kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 13: Returns for fleece wool pr head, based on skirted weight of: 2 kg
