NORTHERN REGION – Sale S39/08

AWEX Market Comment

Wednesday

Merino Fleece: A very solid market had 19.5 micron and finer 5-10 cents dearer, with the broader microns also tending in sellers favor.

Merino Skirting's: All skirtings attracted good support with most microns up to 10 cents dearer.

Oddments: Locks opened on a softer note, then gathered some momentum before closing 5 cents lower than their previous level. Crutching's and stains remained unchanged.

Crossbreds: Only minor movements were seen with 27 to 29 microns generally unchanged, while 30 microns and broader were a little lower on a poorer style offering. 5,798 bales were offered with 7.1% Passed-In.

Thursday

Merino Fleece: The market finished in positive territory on the back of strong buyer demand for better style fine wools. 17.5 microns and finer were generally 30 to 50 cents dearer and 18 to 18.5 microns picked up 15-20 cents, while the remaining medium to broad micron ranges closed 3 to 5 cents higher.

Merino Skirting's: Another strong day for all descriptions as the holes start to disappear and the 5% Vm and less types increased by 10 cents.

Oddments: Locks recouped yesterday's reductions to close 5 cents higher, crutching's and stains remained fully firm.

Crossbreds: After a soft start found some support and retained yesterday's levels. 7,613 bales were offered with 4.3% Passed-In.

48,548 bales are rostered for next week's sale. Jemalong are first seller on Wednesday 1st April.

From an exporter's perspective this week's market was even stronger (due to exchange rate conversion). In US Dollar terms; fine fleece rose by 30-40 cents, medium microns were 15-30 cents dearer, while crossbreds increased by 5-15 cents for the week.

26/03/09	Current MPG	948	750	724	714	703	683	578	554	462	503

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 6: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 8: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 10: Returns for fleece wool pr head, based on skirted weight of: 4 kg

Table 13 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 2kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Fine Wool Production (Less than 19 microns)
Million Kg greasy
