* Note: Due to the irregular market quoting for super fine wool, figures shown relating to micron categories below 18 mic, are an estimate based on the 42 nkt AWEX Premium & Discount Report & other available information. 10 year data is not available on some micron categories, which may result in blank spaces in the table above.

MARKET COMMENTARY

Australian Dollar

65.75 US as of 29/01/2009

NORTHERN REGION – Sale S30/08

AWEX National Comment.

A small three-centre offering of 44,090 bales offered over two days ("Australia Day" public holiday on Monday).

- AWEX-EMI closes the week 3 cents lower at 741 cents (2 cents higher in USD terms), after remaining unchanged on Wednesday and easing 3 cents on Thursday.
- The Australian dollar gained half a cent after a strong gain late in the week to close at 66.2 US cents. The dollar ranged from a low of 64.1 US cents to a high of 67.1 cents during the week.
- Southern Region comes into line with Northern Region prices this week with falls of 20 to 50 cents at the finer edge in Melbourne. Sydney and Fremantle remain largely unchanged during the week. .
- Three centre's are expected to host 49,000 bales during next week's series of sales.

AWEX Northern Region Market Comment

The Northern region has offered just fewer than 9,800 bales this week across two very small sale days. The merino fleece have sold basically unchanged this week on the back of the aforementioned small offering. Small spikes in the 19 microns were negated by corresponding decreases on the final day. The remainder of the fleece wool on offer has shown very little mentionable change. The same report could be made for the better style, low v.m. skirtings. The only slight movement has come from low style, seedy types which were quoted as marginally cheaper. Crossbred wools have maintained their momentum with gains of between 10 and 15 cents for the week. Fine locks gained 5 to 10 cents on the first day and sold firm unchanged along with the remainder of the carding offering on the final day. The Northern region indicator completed the week unchanged at 769c/Kg.

1	90%	1300	1049	1009	993	984	971	923	867	650	581
29/01/09	Current MPG	931	759	724	710	698	671	579	537	450	486

A Decile rank is a rating, usually of performance, on a scale of 1 to 10 where 1 is best, 10 is worst, and each number corresponds to an increment of 10 percentage points.

A percentile is a value on a scale of one hundred that indicates the percent of a distribution that is equal to or below it. In general, a percentile less than 25 is considered below normal, a percentile between 25 and 75 is considered normal, a percentile greater than 75 is considered above normal.

Table 6 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 9kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 6: Returns for fleece wool pr head, based on skirted weight of: 8 kg

Table 8 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 7kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 8: Returns for fleece wool pr head, based on skirted weight of: 6 kg

Table 10 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 5kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Table 10: Returns for fleece wool pr head, based on skirted weight of: 4 kg

Table 13 shows estimated returns per head on fleece wool, based on a skirted fleece weight of 2kg. These figures do not take into account the value of skirtings and oddments and do not take into account discounts that may apply for faults under individual circumstances. These figures are based on a market index of 100% and should be used as a guide only. Returns over \$30 / head for fleece wool are highlighted.

Fine Wool Production (Less than 19 microns)
Million Kg greasy
